Our Vision: To be the preferred insurance and financial services provider to the nation's educators

Horace Mann will protect educators' short-term risks and secure their financial future throughout their life cycle through ...

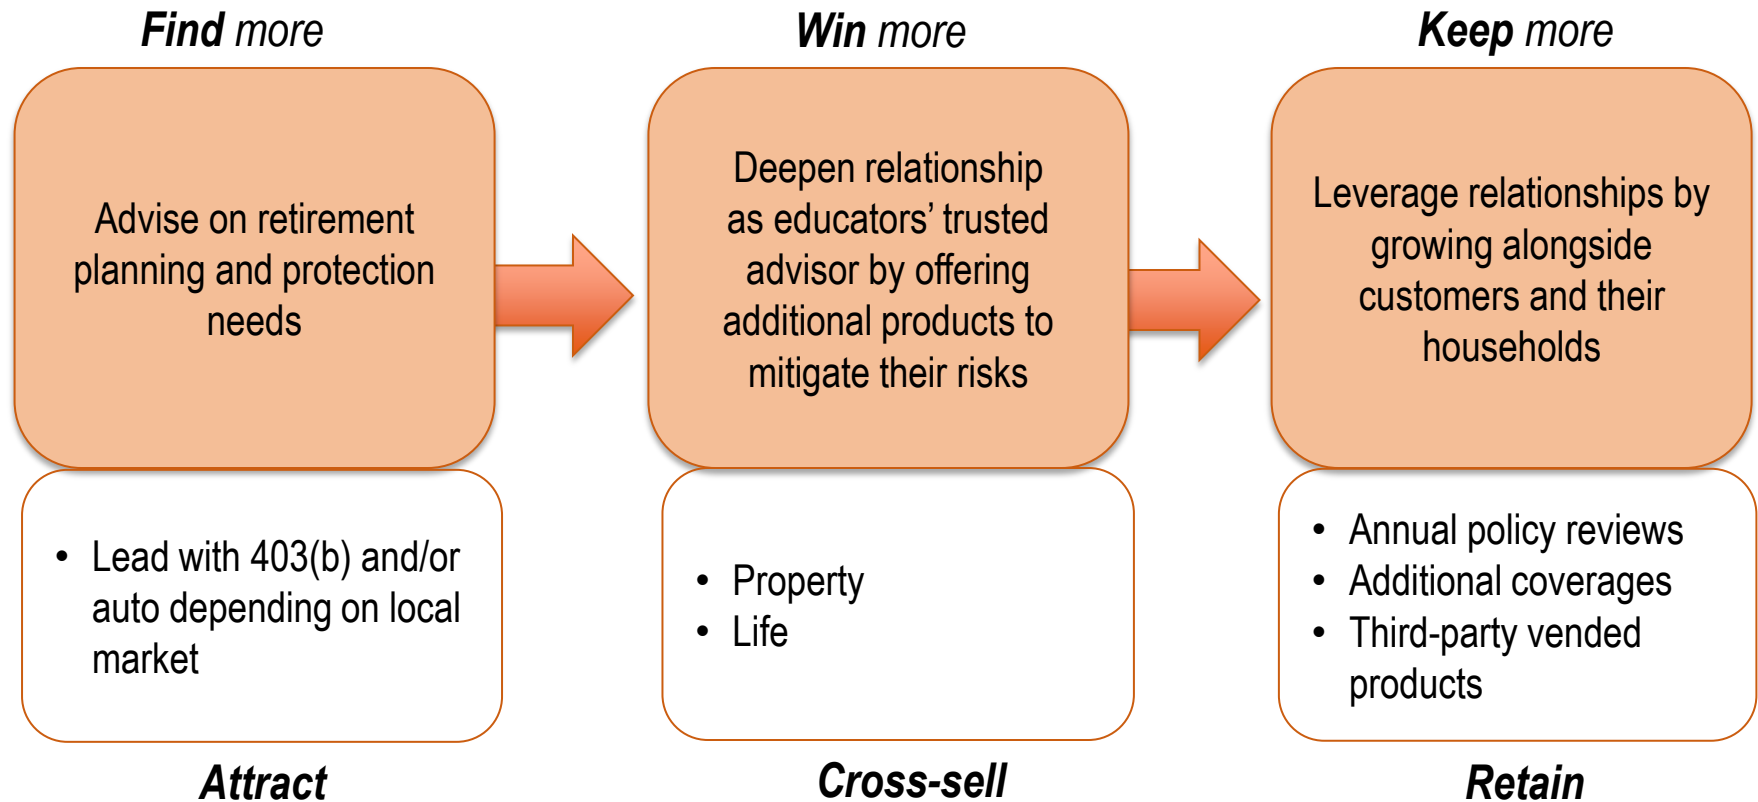

Tailored Product designed to meet educators' needs and cover their risks

Trusted, knowledgeable Distribution tailored to educator needs and preferences

Modern Infrastructure that is efficient, scalable and easy to do business with

... while providing shareholders with a compelling return through various market cycles

Our Strategy: As trusted advisors to educators, we're focused on finding, winning and keeping more educator households

The objective is to acquire an educator household, and then penetrate the household with multiple products and services – **Find more, win more, keep more!**

In addition to finding more educator households, we are focused on expanding our cross-line penetration

- Cross-line penetration significantly exceeds industry
 - Majority of P&C policyholders purchase both auto and homeowner products
- Significant additional cross sell opportunities within our existing customer base of ~360,000 educator households
 - 44% of educator households are only buying P&C products
 - 37% of educator households are only buying Annuity / Life products
- We are focused on increasing our already industry-leading cross-line penetration ratios

Educator Household Distribution by Product⁽¹⁾

(1) HMN data: ~360,000 educator households as of March 31, 2015; Cross-line households defined as Auto and/or Property plus Annuity, Life and/or Group

Our solid retention ratios reflect the loyalty of our educator customer base, in addition to the power of cross selling

- Auto retention increases with each additional household product
 - Monoline Auto – 84%
 - Increases almost 7 points by bundling with Property
 - Increases over 9 points by cross selling
- In addition, we see modest persistency benefits in Annuity and Life for cross sold business
- P&C retention ratios have been relatively stable despite sizable rate actions
 - Loyal customer base
 - Increasing share of Payroll / EFT policies
- Targeted marketing programs to drive higher retention and cross-line sales
 - State teacher retirement system seminars
 - DonorsChoose.org relationship
 - Payroll deduct capability for auto, annuity and life products
